■ What is Business Travel Management (BTM)?

Our online booking service “Business Travel Management (BTM)” on offer for corporate clients covers the booking of flight tickets, Shinkansen (bullet trains), accommodation, and package tours, developed to meet the needs of our clients in domestic and international business trips. There are a number of benefits for clients who make continuous use of our services, such as direct and indirect savings, which also enable Evolvable Asia to employ a stock business model where profits accumulate with the continuing patronage from our clients.

Introduction Cost: Free	Running Cost: Free!
[Direct Cost]	[Indirect Cost]
Drastically reduces cost of tickets	Reduces processing cost Cost Efficiency Doubles!

<Direct Cost Savings>

Various tickets can be purchased at discounted prices, reducing the upfront costs of a business trip.

These benefits are available by either 1) introduction of AirTrip BTM as above, or 2) introduction of OEM site.

<Indirect Cost Savings>

Further indirect savings involve time-saving in pre-payment and reimbursement of expenses, thus reducing costs, as the invoices will be billed directly by introducing AirTrip BTM and using the client-exclusive Web-based business trip booking system in a cloud environment.

■ Prospects of Market Expansion in Business Travel Management (BTM)

Business Travel Management (BTM) market in Japan is valued at 6.4 trillion JPY, of which domestic transportation and accommodation are said to account for approximately 1.8 trillion JPY.

Although research shows that 10 to 20 % of business trip expenses can be cut by introducing Business Travel Management (BTM), further expansion can be expected in the future since a majority of companies currently do not manage their flight expenses incurred during business travels. *1

Evolable Asia's mission is to further develop and expand online travel booking business by promoting our Business Travel Management (BTM), as well as striving for excellence in service for our clients.
